Drug Chemistry Final Report

Report Issued 05/21/2018 13:56

To: M74085
CNN
Attn: Thomas Lake
One CNN Center
Atlanta, GA 30303

Case ID Number 18-WLG-012937
Agency Number NOT GIVEN

Name(s)/(DOB):
ONE BLACK SHOE

Item(s) Received:

Lab Item #	Agency Item #	Description
1	(1)	One black leather shoe containing brown residue

Received Date	Delivery Method Description	Name/Airbill
4/27/2018	FedEx	

Results and Conclusions:

Lab Item #	Compound/Comment	Result
1	Cannabinol, Diltiazem Cocaine, THC (Delta-9-tetrahydrocannabinol) 1 sample(s) tested)	Confirmed Identified

Method of Analysis:

Lab Item #	Analysis Reported Name
1	Gas Chromatography/Mass Spectrometry (GC/MS)

Reference Comment(s):

Cannabinol is a DEA Schedule I substance.
Cocaine is a DEA Schedule II substance.
Diltiazem is a non-controlled, prescription calcium channel blocker.
THC is a DEA Schedule I substance.

Results reported as "Identified" indicates that the substance(s) listed was detected by one analytical method.

Results reported as "Confirmed" indicates that the substance(s) listed was detected by at least two separate analytical methods.

Barry K. Logan, Ph.D. F-ABFT, Laboratory Director

Results reported as "No findings" indicates that no substances within our current scope of analysis were detected.

The remainder of the submitted material is scheduled to be discarded six (6) weeks from the date of this report unless alternate arrangements are made by you prior thereto.

The weight of evidentiary item(s) expressed as a decimal represents the truncated value. This report indicates the analytically determined weight of the evidentiary item(s) with an expanded uncertainty ($k=2.576$) corresponding to 99.00% confidence.

I affirm that I have reviewed all data used to produce this report.

Case 18-WLG-012937 was electronically signed on
